INTRODUCTION

First things first, Hello!
My name is Lauren of Moon Body Spirit and I created this simple guidebook for you to discover the many meanings of the numbers you see most frequently. I love the feeling I get when I see angel numbers in the wild, it's like a little wink from the Universe that you are on the right track and that Spirit does indeed have your back.

WHAT ARE ANGEL NUMBERS?
Angel numbers are one of the many ways that your guides can speak to you - whether you see them on a license plate, a building, a GPS arrival time, a total amount due, or even on someone's hat at the grocery store. (Beanies sold online at www.moonbodyspirit.com)
